**(54) MEMBER FOR ELECTROMAGNETIC WAVE
ATTENUATION**

(57) Abstract:

PURPOSE: To prevent radio interference noise such as the generation of a ghost in a television by preventing electromagnetic waves from being reflected by a building or the like.

CONSTITUTION: The title member is a member 1, for electromagnetic wave attenuation, which uses a ferrite as a magnetic material for high-frequency use. Many grooves 3 whose surface becomes a parabola face are made by arranging them parallel in one direction so that the reflection direction of radio waves can be changed.
